

For customers who want to upgrade to a high-speed digital link from the wall plate to the projector, the TEK Digital Express Drop-In A/V kit contains everything needed to install fully modern, end-to-end digital A/V in just minutes. It can be professionally installed as well. The kit consists of the attractive 4K-compatible TEK TPHD2-WP1 Decora-style wall plate with HDMI and VGA auto-switched inputs and HDBaseT output, a 75-foot Cat 6 plenum-grade HDBaseT cable, a TEK TPHDH402PR HDBaseT receiver with power supply, a 3-foot microflex HDMI cable with lifetime warranty for receiver-to-projector/display, and all controlled by our TekTouchPad touchscreen control.

#### Benefits:

- No programming required - ready to install out of the box
- Drop-In A/V system with easy integration and 4K capabilities
- Includes everything required to run HDMI and VGA sources to an HDMI display or projector
- Low cost system, additional incremental upgrades available with added functionality for RS232, touch screen control, I/R control and more
